COURSE DESCRIPTION

Virginia and United States History examines the origins and development of the issues, patterns and conflicts that characterize the American experience. Central themes are the growth and expansion of democratic principles and beliefs, the impact of expansion and technology, the development of political institutions and practices and the role of dissent and reform in a democracy. By identifying these themes and tracing their historical paths, the relationships between our past and present are revealed.

Students' history and social science skills are refined and reinforced by using and interpreting maps, charts, graphs and political cartoons. Thinking skills are emphasized as students analyze primary source documents, art, literature and music from historical periods to identify cause/effect relationships within and among eras. Communication skills are strengthened and creativity is encouraged as students compose oral, written and visual responses to depict their perceptions about the events, people, conflicts and changes that have shaped the development of our nation and state. Students will take the SOL test for Virginia and United States History or a substitute test approved by the State Board of Education. See the Student Guide for information about substitute tests. Specific dates for the SOL test will be announced by the school.
